

Mtg. 9/26/11

9/26/11 (1)

- Rough play during these early season games is ruling the day.
- What is not being called is creating a very dangerous atmosphere on the fields.
- I've received calls from A.D.'s about games that are being officiated poorly.
- The games are rough and things that should be called are not.
- A lot of the rough play, injuries that have been sustained, cards that have been administered could have been avoided in the opinions of the A.D.'s and fellow observers (including officials)
- Are we on the same wave length here? The following are situations that must be addressed:

1. Pushes from behind by players awaiting kicks in the air from goal kicks, etc. (This must be called early and often. why?)
2. Shoulder to shoulder vs. pushing off. You need to recognize this!
3. Hands on players while attempting to get to the ball!! This must be called early + often. Consistency of course must be evident with partners.
4. Players going for ball but not getting the ball. But getting the player!
5. Players changing directions and holding going on!

Obstruction: indirect kick! Inside the box!! DY VB and BNS VG.
These things happen and did happen!!

- Rule 5, Section 3, Article 1. "ETP"
"notify both coaches, the scorer, and other officials of the nature of the misconduct."

I was the same "Keith."

I gave the same speeches.

I had the same mental & physical approach!

There were still 22 players.

The weather was reasonable.

Same pre-game w/ partner.

Support for coaches was consistent.

→ Had a phone call this AM from

→ Had 2 concerns.

→ First he thought too much let go in first half. Tightened up in 2nd half, maybe some cards given. Thought maybe it could have been avoided if game called closer in first half.

I had a call from....
I talked to refs. Cleared it up!!

Offsides: Don't be late! Where is the player when it's kicked??
