

"The Second Season," "States," "Tournament," "1st round," "Quarters," "semi's"
 Not everybody chosen (take this opportunity vs think about this opportunity.
 The mental aspects have to be defined and crystalized into one "game."
 Transactions? Huh? You got to pitch perfect games but don't lose "self."

States!!
 Liked work ethic,
 and "not afraid."
 Stamina with the
 game!!

DIAGONAL-OFFICIATING SYSTEM

It is important that the three officials meet before any game. The head referee must indicate clearly how each assistant referee may best help.

→ Must set limits!

Two Linesmen run along the touch-line (side-line) with flags. Their prime duty is to signal for off-sides, balls out of bounds, and special problems dealing with discipline, time elapsed, and unusual circumstances. The signal is usually an upraised flag. During play, the Referee shall always be facing at least one of his Linesmen.

} rehearse this!!

The diagonal system permits at least one, and sometimes two officials, to be near play, no matter where it occurs in the field. A Referee will run six to eight miles in a normal game. In cases where he is behind play or out of position, he may expect help from the Linesmen. The ultimate responsibility of the game rests with the Referee, for only he has the authority to stop the game.

} My style vs. you!
 Rehearse this!!

"Pre-game"

don't take this for granted.

The referee is required to meet with timer, scorers, ballholders and captains to remind them of their responsibilities and answer questions. Referee shall meet with both teams and their coaches to discuss unsporting conduct and penalties for failure to act in a sportsmanlike way.

} Do your job!
 Keep your bags packed vs. closet.

The referee is to use the imaginary diagonal line as drawn on the field in Diagram 1 as a base for positioning.

The assistant referees should keep in line with the second to last defender on his/her half of the field or the ball, whichever is most forward.

Stop Play - Offside
 Assistant referee should indicate he/she has seen an offside.

* Ball in vs. out, AR, your job's not over!
 Ref must need help.

Corner Kick

← notice AR. position. vs. near

← notice R, facing AR. + view of box.

The referee (R) moves to regain the correct position along the diagonal path

→ counter attack!

(notice AR1 + R)

Assistant referee (AR2) moves even with the attack and in a position to see infringements and to indicate decisions until the referee regains the proper positions.

} AR2 on his wagon!

Penalty Kick:

referee (R) is in a position to see that the kick is properly taken, encroachment doesn't take place and the goalkeeper doesn't move his/her feet before the kick. Assistant referee (AR1) moves in position so as to be able to note if the whole ball crosses the goal line.

- R (1) Kick is correct
- (2) encroachment
- (3) Keeper off line b/fore kick.
- AR1 (1) is it in?

At the discretion of the referee, the positions of the referee (R) and the assistant referee (AR) may be reversed.

} Sun? / Moisture?!

- consistency!
- verbal before ("straight up!")
- 80 minutes plus OT!

Forker, N. Quincy, Hannover vs. Old Roch.
N.B. guys laughing at me.
Guess what?

NOTE: A reserve official may be assigned to a tournament in order to assure game officiating continuity in the event one of the assigned officials is unable to officiate as assigned. When a reserve official is assigned, the tournament authority will clearly state the officiating position to be assumed by the reserve official in the event a referee or assistant referee is unable to officiate. The reserve official is under the jurisdiction of the referee and performs those duties assigned by the referee. The reserve official's normal station is at the table inside the officials' area during play.

} 4TH official !!

- (1) don't render dismay
- (2) might have to ref, AR?
- (3) maybe move on !!!
- (4) Be part of everything!
- (5) Valuable!

★ Mech. # 1 (Demo) → # 2 (Demo)

Finally

Performance = Promotion
